JAVAC EDGE Vacuum Pumps

CC Series A2L/A3

Aspen Pumps hereby confirms that the following JAVAC A2L vacuum pump models are deemed suitable for use on systems designed to utilize A3 refrigerants, provided that all special instructions outlined in the product manual are meticulously followed:

CC-141-A2L (UK)	JAV-1065-A2L (EU)
CC-231-A2L (UK)	JAV-1067-A2L (EU)
CC-31-A2L (UK)	JAV-1069-A2L (EU)
VGD1622 (UK)	JAV-1075 (EU)

These vacuum pump models have undergone rigorous testing and Aspen certify them to meet the necessary requirements for handling A3 refrigerants. It is imperative that users adhere to the special instructions provided by the manufacturer in the instruction manual to ensure safe and efficient operation.

For any inquiries regarding the utilization of these models with A3 refrigerants or further clarification on the special instructions, please feel free to contact us.
